

## FoamTrol\* AF2290

- General purpose silicone emulsion
- Effective over broad pH range

### **description and use**

FoamTrol AF2290 is a general-purpose silicone emulsion antifoam/defoamer designed to control foam in waste treatment systems, gas purifying units and other chemical processes. FoamTrol AF2290 may also be used to control detergent foams and soluble oil foams.

### **treatment and feeding requirements**

Proper treatment levels for FoamTrol AF2290 depend on many factors, such as severity of the problem and conditions particular to a given installation.

This product is to be used in accordance with control procedures SUEZ establish for a specific application.

FoamTrol AF2290 may be fed neat (undiluted) directly from the shipping container, or diluted to a 10%

solution. Mild agitation should be maintained for any dilution that is to be fed over a period of four hours or longer.

### **general properties**

Physical properties of FoamTrol AF2290 are shown on the Material Safety Data Sheet, a copy of which is available upon request.

### **packaging information**

FoamTrol AF2290 is available in a variety of containers. Consult your SUEZ representative for details.

### **safety precautions**

A Material Safety Data Sheet containing detailed information about this product is available upon request.
